ABOUT THE AUTHOR

Leonidas Fragias is the proud owner of one of the largest record collections which includes nearly every charted hit in Europe and America from the early 1900s to 2018.

Whether it's a John Sousa march, a bossa nova album from Astrud Gilberto, an EDM track from Avicii, a hard rock record from Poison, a hip hop single from N.W.A. or a pop CD from Whitney Houston, Leon's rich music collection occupies an entire room in his house.

Leonidas also has a rich DVD / blu-ray / video collection, because he's a big fan of movies and he's the author of the best-selling "Box Office" books. He also collects many books and comics (especially those from the late 1950s to the early 1990s).

Born in Athens, Greece, Leonidas bought his first album in 1982 (it was the "Rocky III" soundtrack...not the greatest choice, but he was only 10 years old at the time). The first artist album he ever purchased was the eponymous 1983 album by Nena. Leonidas had a huge teenage crush on the famous German singer back then.

When he was a teenager back in the 1980s he used to spend his allowance on records (compilation albums like the British version of "Now That's What I Call Music", LP's, singles, and VHS tapes) and magazines like Billboard and Rolling Stone among others.

He's the creator of many popular sites on the internet about music, movies and comics.
